

# *Playing & Sharing is Fun*

Sharing means that we can take turns playing with a toy.

OK

Here, it is your turn."

**“O.K.  
Here  
you  
go.”**

**Then, I can give my friend a turn.  
I can say, “O.K. Here you go.”**

“Is it my  
turn  
yet?”

While my friend is playing, I can ask,  
**“Is it my turn yet?”**

If my friend is taking too long, I can either find something else to play with.

I can also take some deep breaths or count in my head.

When my friend is ready, then it will be my turn again. This is fun!

OK

**We are all such good friends!  
This is how we play and share together.**

Playing and sharing is so much fun!

The End  
My Friend

## ○ Video Modeling Resources:

Videos can be effective tools for teaching play skills. Go to You Tube and type in “Video Modeling + Type of Activity”. The following are a few examples:
